EDUCATION

- **University of Western Ontario** London, ON
Bachelor of Science, Honours Specialization in Data Science · BUIS 2295F/G (Business for Science) Expected 2027
- **Upper Canada College** Toronto, ON
High School Diploma, International Baccalaureate · Varsity Rugby, JV Football 2023

EXPERIENCE

- **Application Architecture Intern** May – Aug 2025
CI Financial Toronto, ON
 - Contributed to a cloud migration and system implementation across CI Financial's \$103B wealth management division, shadowing platform and architecture teams to deliver data integrations across 50+ pipelines from legacy Sybase/SQR to Snowflake.
 - Developed quantitative validation frameworks reconciling 2M+ client records across 4 transformation stages, tracking dependencies and blockers to maintain 99.9% data accuracy through a major platform transition.
 - Automated Jira sprint workflows via Python and Bash scripting, reducing manual overhead by 10+ hours per sprint and improving delivery visibility across 3 cross-functional development teams.
- **Full-Stack Developer Intern** May – Aug 2024
CI Financial Toronto, ON
 - Delivered a digital advisory platform for 900+ financial advisors managing \$46B in assets, writing user stories with acceptance criteria and translating stakeholder requirements into user-centered product solutions across 6 Agile sprints.
 - Engineered real-time dashboards integrating 5+ financial APIs (REST), applying web and mobile development concepts across a React.js/Django stack to deliver data-driven advisor tools.
 - Facilitated Agile ceremonies, standups, backlog refinement, and sprint reviews, aligning business and technical teams and resolving competing priorities to keep delivery on track across a 3-team engagement.
- **Software Developer Intern** Jun – Aug 2023
CI Financial Toronto, ON
 - Delivered an end-to-end internal web application in 8 weeks from requirements gathering through deployment, applying case method frameworks to evaluate ambiguous stakeholder needs across 3 groups.
 - Contributed to 10+ Agile ceremonies, stand-ups, sprint planning, and code reviews, ensuring cross-team alignment and on-time delivery within business timelines.

VENTURES

- **Co-Founder & ML/AI Technical Lead** 2025 – Present
CONQ (conq.ca) · UWO Presidents Challenge 2026 London, ON
 - Co-founded and led product development for an AI-powered health-tech startup, defining MVP scope, building the product roadmap, and applying machine learning to 5-sensor biometric data (accelerometer, gyroscope, ECG, SpO2, temperature) to bring a real-time concussion monitoring system from concept to prototype.
 - Designed user-centered product and marketing materials in Figma, translating complex AI and biometric technology into clear product narratives for diverse audiences; managed stakeholder relationships across clinical advisors, institutional buyers, and university partners.

LEADERSHIP & COMMUNITY

- **Mt. Kilimanjaro Expedition for Children's Mental Health:** Co-organized a summit climb fundraising \$6,440 from 34+ donors for The George Hull Centre for Children & Families, leading campaign communications, donor outreach, and logistics coordination (@onestepkilimanjaro).
- **Co-Founder, Quantum Computing Club:** Upper Canada College, 2022–23. Co-founded school's first quantum computing club, recruiting 20+ members and leading 8 educational sessions on emerging computing paradigms.

SKILLS

- **Product & Agile:** User Stories & Acceptance Criteria, Product Roadmaps, Agile/SAFe, Scrum (Standups, Backlog Refinement, Sprint Reviews), Value Stream Thinking, Jira
- **Digital & Technology:** REST APIs, React.js, Django, Python, SQL, Snowflake, AI Prompt Engineering, Machine Learning, Figma
- **Consulting:** Requirements Analysis, Stakeholder Engagement, Journey Mapping, Presentations (PowerPoint), Microsoft Office Suite, Bilingual French/English (Native)
- **Certifications:** Exploring SAP Business Technology Platform (SAP Learning, May 2026)
